CVF support for Ukraine Volleyball Federation

Dear Mr. president, Dear Mykhaylo,

Czech Republic and Czech volleyball federation stand behind your country in the unprecedented military attack from Russia. We understand the situation in Ukraine is extremely difficult at this moment.

Czech volleyball federation is ready to support and help Ukraine volleyball federation. We offer to invite and host your underage teams in the Czech Republic to keep them in preparation for international competitions. We believe sport has the power to overcome difficulties, show respect, deepen cooperation, and motivate people. The only place we accept fight is the volleyball court. Now we offer your players our helping hand.

Let us know when the situation allows you focus back on sport activities. Our hearts are with your country, its citizens, and the volleyball players

Stay safe

Marek Pakosta

President of Czech Volleyball Federation
